

Agora: Living with XML and Relational

D. Florescu, I. Manolescu, D. Kossmann, F. Xhumari, D. Olteanu

<http://www-caravel.inria.fr>

Data integration system for relational and XML data sources

- Generic relational schema to describe any XML document
- Relational and XML sources are mapped as relational views over the generic schema
- Quilt queries are translated into SQL queries over the generic schema, and then into SQL queries over the source schema
